

## President's Corner

March, 2016

Hello fellow Archers,

Hope this month's Shavings reach you all in good spirits! We had a good turnout at the Midwestern shoot, only encountered a few challenges, but overall everything went really well. We had a good kitchen run and Marv and Charlie did a great job in keeping everyone fed. I want to thank everyone that came out and volunteered their time and effort into making this event a success, and helped prepare for the upcoming State Shoot!

Remember, there are signup sheets for upcoming shoots in the club house.

We will be holding a vote at the upcoming Club Meeting on road work within the club, please show up and let your voice be heard.

Additionally, we will be coordinating on a comprehensive set of archery rules. They will cover all types of archery; expect them to be posted once we are done. Hopefully this will help clear up any confusion and get everyone on the same page for future events.

We could use some help with the line and kitchen staff at the upcoming ISAA State Indoor shoot 11-13 March, please come out and give us a hand!

We are looking to install a gate at the bottom of the pines to keep unofficial traffic from further eroding our hill. If anyone has experience with this and would like to help out, please let us know. We have the gate, just need to install it.

Also, in an effort to avoid tearing up the flats (meadow by the club house), we would like to remind everyone to refrain from driving on the flats. Please park near the road and walk down to the flats. There will be situations where vehicles will need to be driven down there, but these need to be limited to official functions. Constant vehicle traffic down there will quickly destroy our shooting ground.

Finally, for those that have tree stands still out in the woods, please take them down at your earliest convenience. It is club policy that tree stands will be removed between hunting seasons. Also, a friendly reminder that even though we are on private land, hunting licenses are still required by law, archery hunting only and club policy limits hunters to only club members and those listed on your membership card.

Stay safe and shoot straight!

- Rick

**Energy conservation is everyone's responsibility!** Each year our utilities account for a significant portion of our budget. The more we can cut down on those expenses, the more we can put back into our club! We ask that you **turn off all lights** and reset the **thermostat to 55 degrees** when you leave.

Also, as a reminder, **please lock the main gate** when you enter and depart the grounds. This will help deter non-members from inadvertently entering our club and **possibly causing damage or attempting to hunt and/or discharge firearms.**
